

# CEO Flash Report

ATTACHMENT 3.1

Birmingham East and North 

Primary Care Trust

## Activities – Last month

- National 24 hour workshop to validate and develop approach to World Class Commissioning Development Programme at Warwick.
- BHWP Executive review of targets for Local Area Agreement.
- Development of BEN WCC PID and progress on urgent work in OD and supply chain management; including Wellness programme, OD partnership, BOH vehicle and public engagement.
- CEO review of Birmingham systems for emergency care: agreed each emergency care network to focus on re-design and care pathway work to ensure consistent approach and shared understanding of demand management options at local level.
- Launch work to develop benefits case for systematic approach to public engagement and knowledge management.
- Active recruitment in place for substantive roles in Executive and direct reports: Health Improvement, Operations, Process Improvement, Human Resources and Performance
- Meeting with BCC Leader and members of Prospectus Group to agree relationship to Birmingham Economic Development Partnership
- Review with SHA of local approach to Health Care Acquired Infections
- Meeting with Peter Hay to agree focus of joint activity with Adults and Communities in context WCC.
- LHE CEOs meeting to confirm commitment to Working Together for Health as a key vehicle for continuing improvement in local services

## Activities – Next Month

- Handover of chair of BHWP Executive to Peter Hay; continue as Health member on BSP and Programme Board
- Agreed shared approach to IT infrastructure with Solihull Care Trust
- Finalise DH approach to national development programme WCC and national WCC Board
- Specialised Services Meetings sign off work programme and investment 2008/9
- BHWP Summit to finalise LAA
- Interviews for Health Improvement, Process Improvement and Operations

## Issues & Risks

- Deliver core whilst undertaking development work for WCC
- Secure partnership relationships to deliver
- Agree LAA and minimise hostages to fortune in context lack of clarity re 'vital signs' indicators
